

# CARE FOR YOUR MOST IMPORTANT PEOPLE; YOUR EMPLOYEES

## Who Are We?

TIBU Health is a health technology company building a seamless primary care platform to conveniently deliver world-class healthcare experiences where people live, work and click.

## What Do We Do?

### Corporate Wellness

Comprehensive healthcare solutions tailored to your requirements including: on-site health assessments, laboratory tests, prescriptions and referrals and utilization reports.

### Health Talks

On-site and virtual health talks that provide valuable insights and practical tips ensuring your employees lead healthier, happier lives both in and out of the workplace.

### Trainings & Workshops

Virtual and on-site workshops and trainings customised to your business and employee needs, with a focus on enabling them to gain skills on how to improve their overall health, even as they navigate a demanding workspace and the stressors of life as we know it.

## Why Choose Us?

### Instill a culture of health with proven benefits

- 30% increase in employee satisfaction
- 20% increase in employee productivity
- 50% employee absenteeism reduction
- 20% employee turnover reduction
- 38% sick days claim reduction
- 57% improvement of individual health
